

Belly Wraps

Belly Bandit Original

**Available in Black or Nude*

The Original Belly Bandit Belly Wrap features an uncovered, latex-free design with medical grade elastic to help support your belly, waist and hips post-pregnancy.

Our exclusive PowerCompress Core™ technology is your secret weapon to help accelerate the healing process.

Our Belly Bandit® Belly Wraps are designed to work with Relaxin, a natural hormone produced during pregnancy. Relaxin allows your pelvis and ligaments to soften for childbirth and stays in your body for a limited amount of time post-delivery. Wear the Belly Bandit® Belly Wrap for at least the first six to ten weeks postpartum to help achieve optimal results.

- Supports back, leg & core muscles
- Adds support while breastfeeding
- Provides comfort after C-Section
- Helps accelerate healing
- Applies medical grade compression to help expedite fluids through the body
- Helps with abdominal separation also known as diastasis recti

Upsie Belly®

**Available in Black or Nude*

Support should be easy. There's nothing more exciting than the journey to motherhood. But the strain of pregnancy on your body and back? Not fun. That's why there's Upsie Belly® to provide belly and back support where and when you need it most. This super-comfy band, made from our proprietary, earth-friendly SecureStretch™ material, molds to your changing shape to provide the perfect amount of support.

We added in a hot/cold pack that fits neatly in the back pocket for additional comfort and relief. It can also be used after you give birth by turning the belt around and putting the hot/cold pack over your healing belly.

- Made with luxuriously soft viscose from bamboo
- 12" of adjustability to grow with your belly
- Adds back, hip & abdominal support
- Helps to ease sciatic, back & leg pain
- Helps relieve bladder discomfort
- May help decrease varicose veins, hernias & hemorrhoids

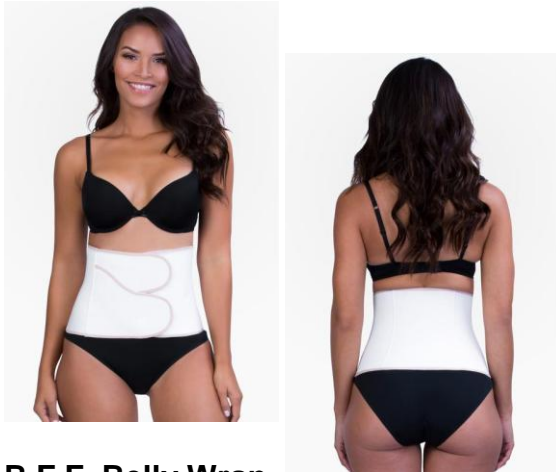

2-in-1 Bandit™

**Available in Black or Nude*

A double dose of support. Our 2-in-1 Bandit™ is designed to work with your body during and after pregnancy. While your bump grows, our band comfortably lifts and supports you in all the right places. Then, once you've delivered, it becomes a hip wrap to help ease your recovery.

- Complete adjustability to grow with your belly
- Eases sciatic, back & leg pain
- Helps relieve bladder discomfort
- Promotes increased circulation & blood flow and may decrease likelihood of varicose veins and hemorrhoids

B.F.F. Belly Wrap

**Available in Black or White*

Your Body Formulated Fit. Designed to emulate the contours of your natural curves, our patented B.F.F. features latex-free, eco-friendly material. Six support panels and two compression panels help support your belly, waist and hips post-pregnancy. Our exclusive PowerCompress Core™ technology is your secret weapon to help accelerate the healing process.

Our Belly Bandit® Belly Wraps are designed to work with Relaxin, a natural hormone produced during pregnancy. Relaxin allows your pelvis and ligaments to soften for childbirth and stays in your body for a limited amount of time post-delivery. Wear the Belly Bandit® Belly Wrap for at least the first six to ten weeks postpartum to help achieve optimal results.

- Double compression, six panel design
- Made from earth-friendly Promodal material
- Supports back, leg & core muscles
- Adds support while breastfeeding
- Provides comfort after C-Section
- Helps accelerate healing
- Applies medical grade compression to help expedite fluids through the body
- Helps with abdominal separation also known as diastasis recti

C-Section Recovery

C-Section & Recovery Undies

**Available in Black or Nude*

After delivery and once you're ready (be it 2 days or 2 weeks post-surgery) these support and recovery undies will come to your rescue with targeted compression to help reduce swelling and silver-infused fibers that can help eliminate bacteria, wetness and odor.

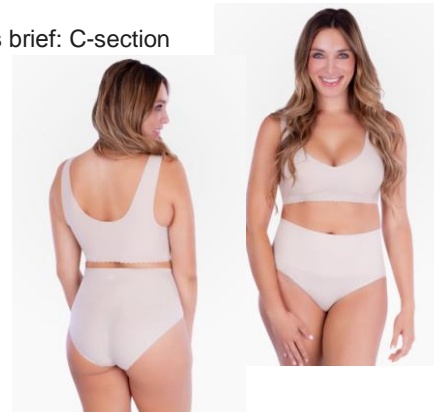

- Protects incision area and helps speed up recovery
- Silver-infused fibers woven into panty help eliminate odor and bacteria
- Moisture wicking fabric helps keep you cool, fresh and dry
- Compression helps reduce swelling and discomfort
- Supports weakened stomach muscles for easier mobility
- Can be used after natural delivery

C-Section Recovery Briefs

**Available in Black or Nude*

Let's make this brief: C-section recovery requires a little extra TLC. These briefs gently protect your incision area while silver-infused fibers help eliminate bacteria and odor.
